DETAILED ACTION

The amendment filed October 1, 2003 has been entered. Claims 23, 27, 30, 31, and 36 have been amended. Claims 1-22, 25, 26, and 37 have been cancelled. Claims 38 and 39 have been newly added.

Accordingly, Claims 23, 24, 27-36, 38, and 39 are pending in the instant application.

The following rejections are reiterated or newly applied and constitute the complete set of rejections being applied to the instant application. Rejections and objections not reiterated from the previous office action are hereby withdrawn.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 1, 2003 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 30 is indefinite in its recitation of "said exogenous factor" because the phrase lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23, 24, 31-33, 36, 38, and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Koh et al. (1995).

Koh et al. (1995) disclose successful engraftment of fetal canine cardiomyocytes into the hearts of adult CXMD (canine X-linked muscular dystrophy) dogs. Confocal laser scanning microscopy revealed the presence of connexin43, the major constituent of the cardiac gap junction, at the donor-host cardiomyocyte border. Connexin43 immunoreactivity was apparent at junctional complexes between the donor and host cells (page 2038, column 2, paragraph 1).

Thus, the claimed invention is disclosed in the prior art.

Allowable Subject Matter

Claims 27-29, 34, and 35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

No claims are allowed.
